

SENIOR SPOTLIGHT: Caroline Hays will be graduating from James Island Charter High School in June 2020 and will be attending Clemson University to study Political Science in the Fall. She hopes to resume working at The Hideaway Pizza Kitchen until leaving for college. Let's show some love for Caroline this week by sending her letters of encouragement.

782 Clearview Drive
Charleston, SC 29412

Caroline, HVPC loves you!

rightnow MEDIA

Anyone missing their Sunday School class? I know I am. Harbor View has purchased an account with RightNow Media for the entire congregation to enjoy. It is easy to set up your account and then you will have access to thousands of bible studies on your computer, phone, or even on your Smart TV. I have been enjoying these and sharing them with my grandson as well. There is literally something for everyone.

Would you like to meet with your Sunday School class for discussion? HVPC now has access to Google Suite and any of your elders or church staff can help you to set up a Google Meet for your class. For best results, you need a computer with a camera, but you can actually call in on your phone to join the discussion or you can use your Smartphone or tablet to join. On a phone or tablet, you will need to download the Google Meet app. On your computer, if you can use the Chrome browser, you can add a Google extension, Google Meet Grid View, that will allow you to see everyone at once.

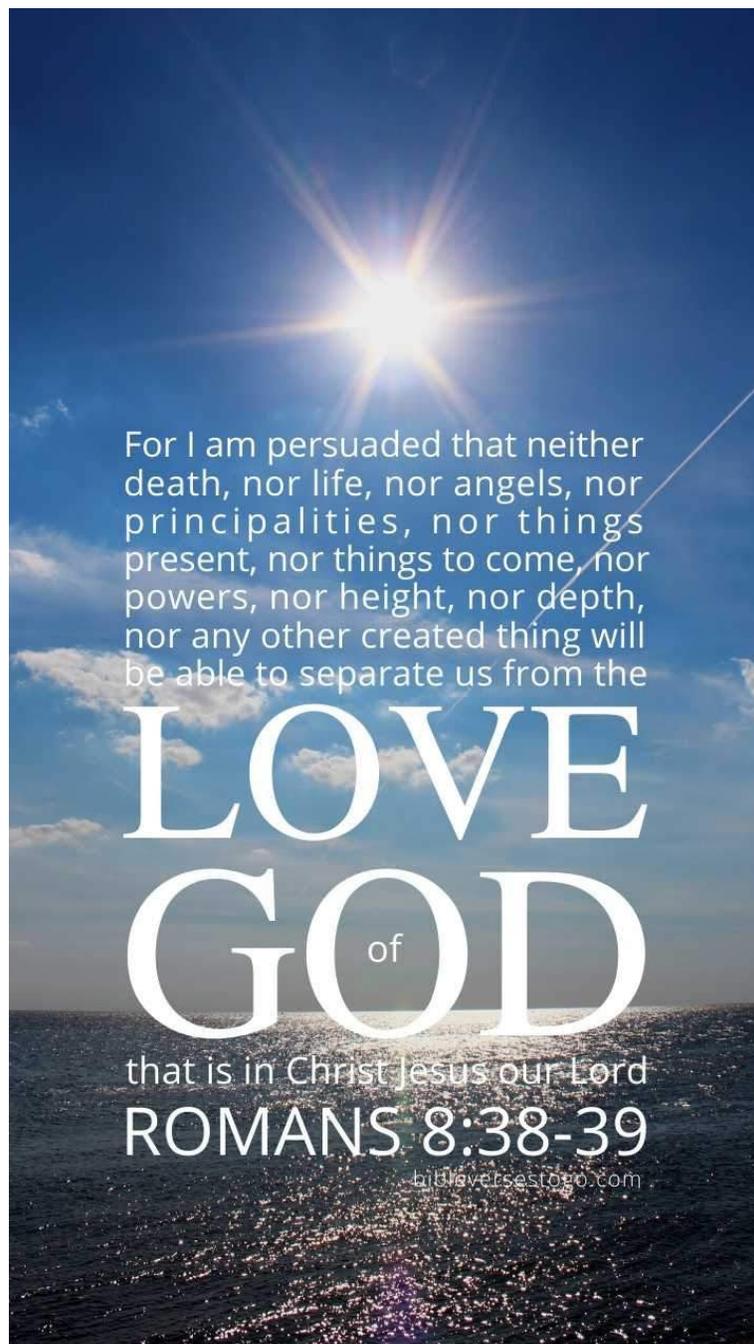

We love that you are all attending our services virtually and we would love to see all of you continuing your Christian Education during this time as well. Until we can be together physically, we need to take advantage of the virtual offering that we have. If I can help in any way, please shoot me an email at deborah@harborviewpc.org. If you have an elder in your class, they should be able to assist you as well.

Pastor's Discretionary Fund Update. It comes as no surprise that HVPC members and friends have generously and quickly responded to the call to help others. Thank you for your support. If you'd like to make a donation to the Pastor's Discretionary fund to help those in need during the pandemic, you may either give online

at <https://abundant.co/hvpc/give> or mail a check to the church. For more details, please review the letter from Pastor Rusty included in the last two week's enewsletters.

As we become aware of opportunities to share these resources, we ask that anyone who has information concerning someone who may benefit from this ministry, please contact pastor Rusty (text or call) @ 864-399-2288. Pastor Rusty will relay all requests to the discretionary fund board for review. Please be aware that as much information as is possible will be needed to be able to address requests and offer assistance. ALL requests and subsequent follow up will be strictly confidential. HVPC will work diligently, thoroughly and swiftly to meet any needs that are shared.

NEW HVPC EMAIL ADDRESSES. A big thank you to Laurel for setting us up with the

Google Suite for non-profits. The Google Suite features available to us are many and very helpful, especially during this time of physical separation. Click [here](#) for a list of the new email addresses. Please update your contacts and we look forward to staying better connected by using this platform now and in the future.

Blessings and peace everyone!

We wanted to take this opportunity to share with our community of faith all of the amazing things that have been happening while we've been away...

Harbor View is still working and growing while we have all been at home. We've had a huge response to our Facebook Live services. Our attendance for the live portion has averaged 100 families, but our views have been 800 to 1500. We are truly Sharing God's love with all.

In addition to this exciting news, and in response to several security concerns that we have been struggling with over the past several years, we have been beefing up security in the building. After forming a committee to explore avenues to address internal and external security issues, we have installed CCTV cameras and new door locks. These additions will provide protection for both our daycare and our congregation. Once everything is installed, the company providing the new security equipment will offer training on how to best utilize what's been installed.

In order to provide all of this, we were required to add reliable WiFi to the building, and it is working beautifully! Since we were pricing all of this, we added in digital signage and screens to see if we could possibly make those upgrades as well. The cost for the screens was minimal compared to the rest of the quote, so your session voted to go ahead and do all of the work. This decision was made just prior to the shutdown, so we have been able to get this work done during this downtime.

Many of you have signed up for [RightNow Media](#), and this service will continue to be a part of our technology upgrade. Our Sunday School classrooms will all have screens and the ability to show these videos and others right in the classrooms.

Finally, once things return to our normal 9:30 am Sunday schedule, due to these additions, we will be able to continue showing our Sunday morning services online with the new camera that is being installed in the sanctuary. So, if you are unable to make it to church, everyone will be able to view the service live! It will be on the screen in the nursery as well so that the nursery workers can see what's happening in the sanctuary. We are excited to have the ability to continue reaching the larger audience that this pandemic has created, but, most importantly, we look forward to worshipping together, in person, as soon as we are able.
