

Resources for Background Checks

These resources have been utilized by member churches of the CNO commission or are recommended by another church affiliated site. By no means do we endorse one over the other. Rather we make these available as a starting point for researching which service is appropriate for the church you serve.

- Check with company that insures church. Some of them, like Church Mutual, have a company they are working with to help encourage/provide this service to you for a reduced fee.
- Check with church record keeping software. Some of these also offer that service for a package deal or reduced fee.

Specific companys some have used:

Christian Background Checks:
