

Here are just a FEW of the many children who wait for the privilege of clean water! And your Transylvania Presbytery Living Waters for the World team is going to make it happen!

These children live in the village of Pomuch, in the Yucatan peninsula of Mexico. They are wonderfully joyful and intelligent, but lack of access to clean water often means illness and subsequent absence from school, and lack of opportunity to develop their God-given potential.

As soon as the COVID situation (both here in the USA and in Mexico) permits, our team plans to enter into a covenant with the Presbyterian Church there, for the purpose of creating a water purification system that will supply their homes, schools and clinic with safe water.

Would you like to be a part of this amazing ministry? If so, there is a place for you – as an active participant, as a financial supporter, or as a pray-er for the success of the project. You are needed and welcome!
